

product details

aqua speed 600h

high pressure hot water cleaner mobile 170 bar, 14 l/min, 75 °C (155 °C)

trolley with plastic hood to protect motor and pump against dirt. two inflexible solid rubber wheels, one steering roller to move the device easily.

water tank made of plastic, cast en bloc, weldless, integrated into the unit. compensates for pressure variations in the supply and increases the service life of the high pressure pump with bubble-free water.

crankshaft pump with ceramics plungers, high-quality pump head, long service life and maintenance-friendly set-up. pressure continuously adjustable.

safety fittings, such as rupture discs or safety valve, avoid excessive pressure build up.

combustion chamber 66kW heating capacity with stainless steel housing designed to permanently prevent rusting of the outer casing. large heat exchange surfaces to reduce exhaust gas emission.

electronic engine spray water protected, solid design with power reserves for 100% continual use.

automatic on/off system.

heating oil tank made of plastic, cast en bloc, weldless, large tank for large refuelling intervals. impact resistant and rust free for safety purposes.

high pressure hose nonstop 2, 20m, 250bar, 155°C, 8mm internal diameter. the steel insert provides for extra durability without any repair costs. the provided hose reel for high pressure hose saves a lot of time and space.

high pressure gun falch gun 3 with servo power assistance and the smart nozzle cleaning needle. is intended to ensure continuous blasting by the operator without pains in hands and joints.

lance with nozzle support and flat jet nozzle for safe working.

accessories by falch provide further options and save time during blasting.

optimal protective clothing and special seminars mean operators can achieve better and faster results.

service: our world wide network of service partners are ready to provide you with express spare parts and repair service.

guarantee: falch offers a 24 months guarantee with unlimited operating hours for the whole equipment. we refer to our guarantee terms.
